

Prepared by SCP Developments Limited

Milestone...

... Hoist Installation

To keep material and workers moving up and down the building, we are required to install a hoist.

The installation of this elevating device is almost complete and will soon be commissioned.

This is a standard piece of equipment on any high rise construction site. It undergoes routine safety inspections and is operated by a licensed professional.

Pedestrian and Traffic Safety

As the building goes up, vehicle and pedestrian safety remain the utmost importance. As such, we will continue to utilize both qualified traffic signalers, security guards, as well as paid duty police officers as part of work process.

Construction Schedule (tentative dates)

March 23

Formwork Completion

May 31

Precast Completion/Crane removal

September 5

Building Envelope Completion

Construction Work Hours

Typical construction work hours are as follows:

M-F : 7am to 7pm

Sat : 9am to 7pm

Sun/Holidays: No Work
