

Prepared by SCP Developments Limited

## Façade Update

We are approaching a milestone in the project, where structural forming is near complete. Our elevator work has now started and the installation of our precast facade has been progressing, in spite of all the spring wind and rain. Soon our windows will be measured and ordered, with install anticipated to start in early July.

## Green Building

**Did you know...** that construction standards have been improving as it pertains to the environment. The City of Toronto Green Standards, with the support of builders such as Madison Homes and Fieldgate Homes, implement various measures such as indoor air quality and waste management programs that incorporate low VOC paints and materials, recycling programs, and the use locally sourced products and materials when possible.

Additional innovations such as the use of “bird friendly” glass, green roofs, and energy efficient appliances are just some of the efforts the construction industry has adopted when building new homes.

### Construction Schedule (tentative dates)

#### May 19

Estimated Major Structure  
Completion

#### October 2

Streetscape Work  
Commencing

### Construction Work Hours

Typical construction work  
hours are as follows:

**M-F : 7am to 7pm**

**Sat : 9am to 7pm**

**Sun/Holidays: No Work**
